Hi Phil,

I spoke with the Keith Boggs of AKNHP and Dr. Dan Rinella, Aquatic Ecologist with UAA and they are thrilled and excited to help you with this project. We discussed the draft work plan I have put together based on our discussions. NatureServe will oversee the project and subcontract to AKNHP for this work.

Please look over this draft work plan and let me know if this will meet your needs. Let's discuss any changes needed.

The process at this point is for us to agree on the a detailed work plan and deliverables, so we know precisely what you'd like us to do, and so you know precisely what you will be receiving. Once that concept is in place, you submit the plan to your EPA IDQ officer.

Cheers,

Gwen

"Never in his life had he seen a river before –

This sleek, sinuous, full-bodied animal, chasing and chuckling, gripping things with a gurgle and leaving them with a laugh... All was a-shake and a-shiver—glints and gleams and sparkles, rustle and swirl, chatter and bubble."
